

SERGIO GARDELLA

Crafting Immersive XR Experiences

LATEST WORK EXPERIENCE

bloompix **FOUNDER & GAME DEV** 2022 - Present

Bloompix Studios, SL

- Currently developing an innovative puzzle VR game as an independent game developer. Taking on multiple roles including: coding, art, design and production.
- Utilizing a range of VR technologies and platforms to create an engaging and interactive gaming experience.

Xcrisalix **DIRECTOR OF ENGINEERING** 2020 - 2022

Crisalix

- Transformed the company's development workflow by implementing Agile development practices and creating cross-functional teams, resulting in significantly improved efficiency and productivity.
- Managed and created workflows for other teams such as support, quality assurance, and translations.
- Managed a team of 40+ engineers.
- Utilized strong communication and management skills to effectively lead and motivate the development team.

TECHNICAL DIRECTOR 2017 - 2019

SoccerDream

- Led the development of a VR football training platform designed for use by professional soccer clubs.
- Managed the development team, including scheduling tasks, prioritizing work, and reviewing progress.
- Analyzed and determined the technical direction for the platform, including translating soccer concepts and behaviors into tangible elements for integration in the software and defining production pipelines.
- Developed prototypes and helped bring the platform to market, enabling soccer players to improve their tactical abilities through VR exercises.

bloompix **FOUNDER & CEO** 2005 - 2017

Bloompix Studios, SL

- Founded and led a game development studio that specialized in creating VR games and experiences.
- Developed and launched VR games on platforms such as Oculus, Pico, HTC, and Android.
- Successfully grew the studio over 13 years, achieving over 1 million downloads on Android and being recognized as one of the three best VR games of 2018.

unity **SME CONSULTANT** 2015 - 2016

Unity Technologies

- Created Educational Design Outlines for the Certified Developer Courseware.
- Contributed to the development of Unity Technologies' product certification and training offerings.
